FROM THE OFFICE OF PRINCIPAL

It gives me immense pleasure to present this Prospectus for the academic session 2026–27 of Gyanpeeth Degree College, Nikashi. Since its inception, our institution has remained committed to providing quality higher education to students, especially those coming from rural, tribal, and international border areas. Situated in a geographically sensitive international border region, the college carries a special responsibility to empower the youth through education, awareness, and value-based learning. A significant number of our students belong to diverse tribal communities, and we take pride in nurturing an inclusive academic environment that respects cultural diversity while promoting academic excellence. I am delighted to share that the college has recently introduced the Science stream, marking a new milestone in our journey of growth and development. With the addition of 15 dedicated faculty members in this stream, we are steadily expanding our academic horizon to meet the evolving needs of students and society.

Our faculty members are highly qualified, experienced, and deeply committed scholars in their respective fields. They continuously strive to inspire students through innovative teaching methods, research orientation, and personal mentorship. Their dedication plays a vital role in shaping the academic and moral character of our students.

At Gyanpeeth Degree College, we believe that education is not merely about acquiring degrees, but about building responsible citizens equipped with knowledge, skills, and values. We encourage our students to participate in co-curricular and extension activities, fostering leadership, social responsibility, and holistic development.

I warmly invite aspiring students to be a part of this vibrant academic community and take advantage of the opportunities provided here. Together, let us strive for excellence and contribute meaningfully to society.

With best wishes for a bright and successful future.

PRINCIPAL IN-CHARGE

PROFILE OF THE COLLEGE

As a result of the relentless dedication and tireless efforts of local intellectuals, educationists, and social workers of greater Nikashi, Gyanpeeth Degree College was established on August 1, 1993. The college's Governing Body—formed in 1991 under the leadership of eminent social thinker Mr. Dayananda Bhandary as President and distinguished educationist Late Prasanna Sarma as Secretary—pursued every possible avenue to bring the college to fruition and has ensured its smooth operation since inception. It is gratifying to note that the sustained public support and cooperation of the local community enabled the Governing Body to overcome early challenges in financing, land acquisition, infrastructure development, and academic and administrative management.

It is a matter of pride that the institute has been included under Sections 2(f) and 12(b) of the UGC Act, 1956, and has been both recognized and provincialized by the Government of Assam. The college currently enrolls 1,210 students. In the past two academic sessions, it has signed 17 MoUs with various colleges, NGOs, and government agencies.

VISION

Upgrading the college to a full-fledged, multi-disciplinary autonomous post-graduate institution. The college envisions expanding its academic horizon through the introduction of diverse post-graduate programs, strengthening research and innovation, and fostering a culture of academic excellence that caters to regional and national needs.

MISSION

- To foster an academic environment in the locality that is welcoming, supportive, and conducive to learning.
- Deliver high-quality higher education that empowers every student.
- Encourage and nurture creative thinking and research endeavours among faculty and students.
- Foster unity, mutual respect, and harmony across the student body.
- Develop intellectually enlightened, honest, diligent, and socially responsible citizens.
- Equip students with the professional skills and practical expertise needed for success.
- Embrace continuous improvement and innovation in teaching, learning, and institutional processes.

The department offers Physics courses for both the Higher Secondary level and the Four-Year Undergraduate Programme (FYUGP) under Bodoland University, Kokrajhar, Assam. The department is equipped with well-maintained laboratory facilities and modern instruments to support practical learning. It is also committed to organizing seminars, workshops, and academic activities to enhance students' knowledge and exposure. The department is proud to have highly qualified, experienced, and highly dedicated faculty. All the faculty members are equally passionate about their research and teaching. They are keen to bridge the research and the classroom and to involve the students in research. The research interests of the faculty span diverse areas, including Material Science, Soft Matter and related emerging areas.

The Department of Zoology at Gyanpeeth Degree College was established in the year 2024 with the objective of providing quality education in the field of Zoology. The department currently offers an Honours course in Zoology with an intake capacity of 30 students, ensuring focused attention and effective learning. In addition to the core curriculum, the department emphasizes holistic development by offering Skill Enhancement Courses designed to equip students with practical, real-life knowledge. To bridge the gap between theory and practice, the department regularly organises fieldwork, study tours, and educational visits, enabling students to gain hands-on experience and exposure to natural environments. The department is supported by a team of qualified and

dedicated faculty members who are committed to academic excellence and student development. It is well-organised and equipped with modern laboratory facilities, providing students with ample opportunities to develop practical skills and scientific understanding through hands-on training. Furthermore, the department also offers career counselling to guide students toward diverse opportunities. With a student-centric approach, the department aims to foster overall academic, practical, and personal development.
